IZMIR INSTITUTE OF TECHNOLOGY GRADUATE SCHOOL

NON-THESIS MASTER'S PROGRAMS OFFERED IN THE 2024-2025 ACADEMIC YEAR SPRING SEMESTER AND PROGRAM-SPECIFIC APPLICATION REQUIREMENTS

International applicants who have neither ALES/GRE score nor the required proof document for 1250 days are advised to check out the conditional GRE information at: **https://lee.iyte.edu.tr/en/graduate-application/8153-2/**

Find below the program-specific application requirements and evaluation criteria and methods for the 2024-2025 Academic Year Spring Semester.

Candidates who are in their last year and who will be able to graduate by the registration deadline can apply as well.

The names of undergraduate programs outside of Türkiye (abroad) programs that candidates have graduated or will graduate from may not fully overlap with the graduation requirements listed below. In this case, these candidates can also apply. However, the application is examined by the Head of the Department conducting the program in terms of program and/or degree name and it is decided whether the candidate's application can be evaluated.

Candidates who will apply to programs that will conduct online interviews and/or online written science exams must give explicit consent for online interviews and/or online written science exams within the scope of KVKK. For candidates who do not give explicit consent to the online interview, a written evaluation accompanied by a proctor will be held at İYTE, and for candidates who do not give explicit consent to the online written science exam, a face-to-face written science exam will be held at İYTE. Candidates who do not give explicit consent will be informed about the location of the face-to-face written assessment and/or face-to-face written science exam in the online application program.

Information about online exams will be announced on the web pages of the relevant departments.

Engineering Management, and Software Engineering and Architectural Restoration Non-Thesis Master's Programs are taught as evening education. Their tuition fees are charged per credit. (You can get information about the fees from the Registrar's Office at +90 232 750 63 00 or oidb@iyte.edu.tr).
